

MILL LEVIES

2014 - 2015

Kansas Public School Districts

Introduction

This publication has been prepared by the School Finance section of the Kansas State Department of Education to provide mill levy data for each of the unified school districts in Kansas.

Due to the state school finance law, as amended, all general fund mill levies are set at 20.00 mills. The recreation commission levy has been moved out of the USD total mill levy since it is not a true school levy.

It is hoped that this report will be beneficial to school boards, school administrators, and others who may be interested in the educational programs of local public school districts.

Please visit the School Finance section of the Kansas Department of Education website at www.ksde.org for more publications or additional information.

Property taxes for these funds are computed using a mill rate. This is a mathematical procedure to determine property taxes. **One mill is one dollar of property tax levied against \$1,000 of assessed valuation.** The assessed valuation is computed by taking the market value of the property and multiplying it by the [appropriate assessment factor](#) for that class of property.

How are mill levies computed?

The following example for a \$100,000 house is used to show how property taxes are computed. A school district has a total mill levy of 50. Of this 50 mills, the general fund is 20 mills (by statute), leaving 30 mills for the other fund levies. For general fund only, the first \$20,000 is subtracted from the market value of the house to arrive at the assessed valuation of the house. For example, a house with a market value of \$100,000 would be reduced to \$80,000 (\$100,000-\$20,000 exemption) for general fund only. The \$80,000 is multiplied by the assessment rate of 11.5% to arrive at an assessed valuation of \$9,200. (\$80,000 x 11.5% = \$9,200). The \$9,200 is multiplied by .020 (20 mills) to arrive at the property taxes for the general fund of \$184. For the rest of the levy funds .030 (30 mills) is taken times the assessed valuation of \$11,500 (\$100,000 x 11.5%= \$11,500) to arrive at the property tax of \$345. By adding the two amounts of \$345 plus \$184, the result is a total school district property tax of \$529 for this example.

Another example for a \$125,000 house is shown below:

	Property Tax Calculation	
	<u>General Fund</u>	<u>All Other Funds</u>
Market Value of House	\$125,000	\$125,000
\$20,000 Exemption	- 20,000	
Net Value of House	\$105,000	\$125,000
Assessment Factor for Homes	x 11.5%	x 11.5%
Assessed Valuation	\$ 12,075	\$ 14,375
Mill Rate	20 mills	13 mills
Property Tax	\$ 241.50	\$ 186.88
	(\$12,075 x .020)	(\$14,375 x .013)

Total School Property Taxes = \$428.38 (General Fund plus all other funds)
