SUBJECT: Estimated Effects of Senate Bill 71

Senate Bill 71 amends the method for computing supplemental general state aid (local option budget).

Under current law, the assessed valuation per pupil for school districts is sorted low to high and the 81.2 percentile is determined. This percentile is then used in computing the supplemental general fund state aid entitlement. Senate Bill 71 changes this factor to the *school district with the highest total assessed valuation*.

Senate Bill 71 becomes effective for the 2014-15 school year. The change in computation would lower the factor for computing supplemental general state aid from \$116,700 (81.2 percentile) to \$108,527 (school district with highest total assessed valuation).

In summary, this bill would have the effect of reducing supplemental general state aid in the current school year by approximately \$39,098,023.

Attached is a computer printout (SF15-044) which provides the effects of Senate Bill 71 on each school district.
