HEADCOUNT ENROLLMENT
FOR KANSAS PUBLIC SCHOOLS

This publication has been prepared by the School Finance Section of the Kansas Department of Education to provide enrollment information for each of the unified school districts in Kansas. The data has been compiled from the Superintendent's Organizational and the Principals' Building Reports. Please note that as KIDS audits are posted, headcount reflects audits. Districts audited at time of this publication will be reflected.

It is hoped that this report will be beneficial to school boards, school administrators, and others who may be interested in the educational programs of local public school districts.
